

The Mentoring Connection Workshop:

*Mentors don't create arrows for God's purposes. God does that. Mentors polish the arrowhead that God has already created in the potential of another. This is why all of us can participate in this high-impact process as led and directed by God—**first as mentees and then ultimately as mentors** in our local church.*

Discover your connection through:

- Twelve flexible relationship priorities of Jesus
- God's steering us into varying roles—*peer, occasional, passive and intentional relationships*
- A holistic cycle of mentoring:
